

Project Demo Planning

Date	04 July 2026
Team ID	
Project Name	Rising Waters – Flood Prediction System
Maximum Marks	1 Mark

Project Demo Planning:

Plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities. Updated to walk through account creation and prediction history alongside the original prediction flow.

S. N O	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction	State the flood-prediction problem and why an instant self-serve tool helps	1	Lahari Sri Kotipalli
2	Solution Overview	Explain the ML model comparison, the Flask backend, and the new accounts/history layer	1	Lahari Sri Kotipalli
3	Register & Log In	Create an account, then show “Continue with Google” as an alternative sign-in	1	Lahari Sri Kotipalli
4	Live Demo - Flood Case	Submit high-rainfall values and show the Flood Predicted result + gauge	1	Lahari Sri Kotipalli
5	Live Demo - No Flood Case	Submit low-rainfall values and show the No Flood Predicted result	1	Lahari Sri Kotipalli
6	Prediction History	Open /history to show both saved predictions, then delete one	1	Lahari Sri Kotipalli
7	Theme Toggle + Command-line Testing	Show light/dark switch, then an authenticated curl/Postman call to /predict	1	Lahari Sri Kotipalli
8	Q&A;	Address evaluator questions	1	Lahari Sri Kotipalli
